

RWP Impeller Notice

Faulty Aftermarket Raw Water Pump Impellers

May, 2013
SUP2013-02

NOTICE!!!

There is an aftermarket Raw Water Pump Impeller that is now available to Dealers and consumers. It claims to be a direct replacement for our PCM Raw Water Pump Impeller Kit Part Number RP061022. We have found this impeller to have a design flaw that prevents the impeller from pumping water.

This impeller services all PCM Modular Raw Water Pumps back to 2003 models. The impeller DOES NOT function properly, and can cause catastrophic engine failure. This failure would NOT be covered under the PCM Engine Warranty!

In order to prevent situations like this, ALWAYS use Genuine PCM Replacements Parts.

PCM Impeller Kit Part Number RP061022 (includes O'Ring & Impeller). This is the replacement OEM Impeller kit for Raw Water Pump numbers: RA057032, RA057034 and RA057035.

PCM Impeller Kit Part Number

RP061022 (includes O'Ring & Impeller)

Raw Water Pump Part Numbers:

RA057032

RA057034

RA057035
